

# Hazim Waqar

Faisalabad, PK | P: +92 312 3321243 | [hazimwaqar.contact@gmail.com](mailto:hazimwaqar.contact@gmail.com)  
| [linkedin](#) | [github](#) | [Portfolio](#)

## EDUCATION

---

**National Textile University**  
Major in Machine Learning

Bachelor of Artificial Intelligence  
Expected July 2026

## WORK EXPERIENCE

---

**It Company• Remote**  
**Assistant Graphic , Web Designer & Developer**

Faisalabad, PK  
April 22 – Nov 23

- Websites like <https://itcompany.com.au/>
- <https://www.teambonding.com.au/>
- Australia-based company workforce in Pakistan

Now want to work on my core field of Machine Learning and Data Science. Below are the Projects I have made

## PROJECTS

### AI Reader: Semantic QA over Enterprise Documents

Leverages semantic search and LLM-based QA to provide precise, context-aware answers.

*Tech: Firebase (Auth/DB), Python backend (LangChain/FAISS), streamlit frontend*

### MagicMorph: From Prompt or Photo to Art

AI-powered art generation. Instantly convert text prompts or uploaded photos into high-quality digital artwork.

*Tech: React/Streamlit frontend, FlaskAPI backend, Stable Diffusion/LoRA fine-tuning*

### Smart-Voice-and-Portfolio-Chat-Assistant

Seamlessly switch between real-time speech-to-text, voice commands, and portfolio management for a hands-free workflow.

*Tech: Whisper, FlaskApi backend, Huggingface models*

## TECHNICAL SKILLS

- 
- **Languages:** Python, HTML, CSS, JavaScript, React.js, SQL, Bash,
  - **Infrastructure-Cloud:** Docker, Kubernetes, Streamlit, Postman, Heroku
  - **Frameworks:** NLP, LLMs, Gen Ai, TensorFlow, Py-Torch, Computer Vision
  - **Technologies/Tools:** Git and GitHub, MongoDB, VS-Code, IoT-based tools like Influx-DB, Grafana, MQTT, Google-Colab, Hugging Face
